Why the Unbanked are Still Left Behind

1.4 billion people around the world
– live without a bank,
without ID, without a voice.

In centralized systems,
their very existence goes unrecognized.

$\times 128$

ENBANKED builds
the first bridge
to where the system cannot reach.

1.4 Billion
Unbanked

Why ENBANKED?

ENBANKED was born from real stories.

In March 2025, we met Mon and Karen families along the Thai-Myanmar border.

They live without nationality or ID—and their reality inspired us to act.

**ENBANKED is a bridge between crypto and cash
—reaching where centralized systems cannot.**

DEMO

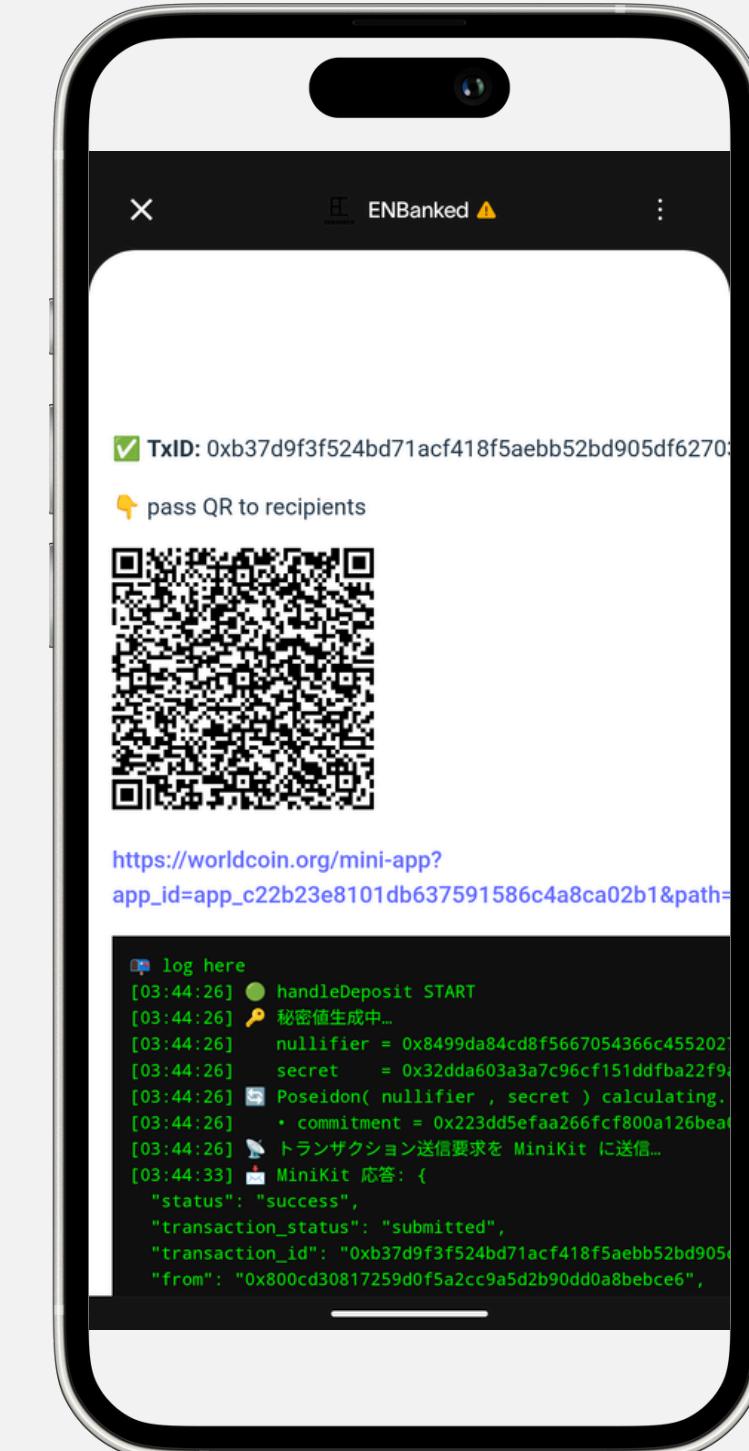

ENBANKED

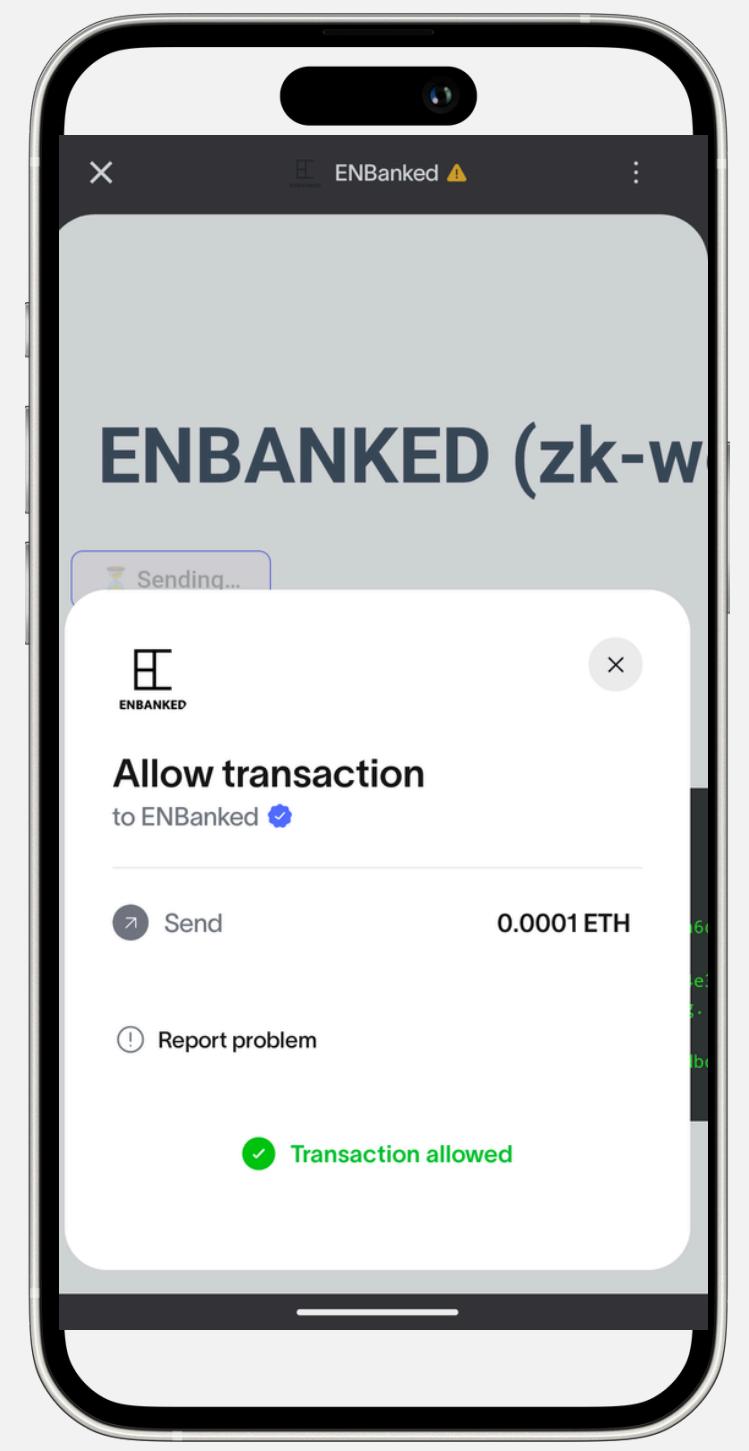

Worldcoin

Protocol Integrations & Prize Eligibility

- World MiniApp 

- Blocksout (as primary explorer) 

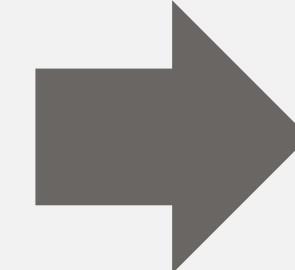

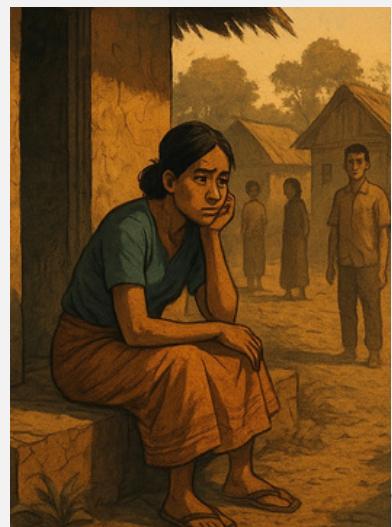

- Autoscout SDK for real-time transaction visibility 

- ZK technologies 

Core Features of EMBANKED

- 💳 Send crypto with a QR code and receive local cash
- 🎨 Kind and intuitive UI anyone can use
- 🌀 “EN” stands for connection, harmony, and a sense of belonging
- 🌐 A bridge between crypto and local cash

From closed systems, to open hands.

Our Connection to the Real World

- We already support education in many places around the world.
- We help rebuild schools and work closely with local people and NGOs.
- With these trusted networks, I can help bring ENBANKED to the people who truly need it

Not just money.

A new kind of economy — built on trust.

Powered by Connection, Delivered with Trust
